

Fiber Optic Cabling System

Fiber Pigtail

LC Pigtail

Product Description

A short length of single-fiber tight-buffered cable, that has an optical connector on one end and a length of exposed fiber at the other end. The exposed fiber of the pigtail is then spliced to one fiber of a multi-fiber trunk, to enable the multi-fiber cable to be "broken out" into individual single-fiber cables that may be connected to a patch panel or an input or output port of ST, and LC; if not mentioned, it should be PC contact. If APC contact, the part number should suffix "-APC". Fiber type could be single mode and multimode.

Part Number	Description
40001-LL-ST	ST Pigtail
40002-LL-SC	SC Pigtail
40003-LL-FC	FC Pigtail
40004-LL-LC	LC Pigtail

LL : Fiber Length

Xn: Fiber Type (Example : 06 means OM1 62.5/125µm; 05 means OM2 50/125µm; 05a means OM3 50/125µm aqua color; 09 means OS1 9/125µm)
